

Dutch Flat Enquirer.

THURSDAY, NOV. 13, 1862.

ACKNOWLEDGEMENT.—The following letter was received from the Assistant Secretary of the Relief Fund Committee:

SAN FRANCISCO, Oct. 27th, 1862.

C. B. FLETCHER, Esq.,

See Dutch Flat Relief Fund Com.

DEAR SIR:—I acknowledge with much pleasure the receipt of your of the 24th inst., with the enclosed check for Ten hundred and thirty-five dollars. Please to extend the thanks of the Relief Committee to the citizens of Dutch Flat for their liberal donation. Every day we are receiving from the interior towns these noble evidences of loyalty and patriotic feeling. By the last steamer we sent away \$30,000—most of it contributed by these towns. If the flow continues in this way, it will not be long before we shall make another remittance equally large. I am glad to learn this is only a part of what your citizens expect to give.

Respectfully yours,
Geo. B. Merrill,
Asst. Sec. Relief Fund Com.

Since the above amount was remitted there has been collected the further sum of \$130, making \$1,165, with a fair prospect for more. The scarcity of the "ready," particularly at this season of the year, materially lessens the amount that would have been raised in this town.

PLACER COUNTY AGRICULTURAL SOCIETY.—In another column we publish the proceedings for the organization of this society, had at Auburn on the 1st of Nov. inst. The Secretary, S. B. Wyman, informs us by letter, that he is now fully prepared for receiving members to the same, and solicits our aid in behalf of the society. All persons in this vicinity wishing to become members can do so by leaving their address and paying \$5, the admission fee, with us at this office. We would advise every person, who can possibly spare the amount, to assist in establishing this society upon a permanent basis. It will prove a great benefit and reflect credit to the county.

FIRST PAGE.—We publish on the first page of today's issue the Railroad A. t., which authorizes Placer county to loan its credit to the amount of \$100,000 to the Sacramento, Placer and Nevada Railroad Company, and is to be voted upon by the citizens of this county at a specified time, due notice of which will be given. As this is a matter of great interest and vital importance to every citizen of this county, and in order that every elector shall have an opportunity to judge for themselves, we shall continue to publish this Act until the day of election. Read it attentively.

Also, on first page will be found the Chronology of the war for the month of October, which will be found interesting.

FRESH GOODS.—H. C. Harvey & Co., advertise in another column the receipt of a large and well assorted stock of groceries, provisions, etc., first quality, which they offer at the lowest cash prices. Parties wishing to purchase will do well to examine their stock.

OUR correspondent, "JAY SCHMIDT," from You Bet, reached us too late for this issue, but will appear in our next.

Also the poem by "Saw Mill Peter."

GOLD DIGGINGS IN VERMONT.—Gold digging has taken a fresh start in Plymouth, Vermont. Recently, J. H. Bass, a gold digger from Rhode Island, found a piece worth \$15.50. This is the largest piece yet found in those diggings. He has found several pieces valued at from \$1 to \$5. He seems to have struck a rich lead which yields from \$3 to \$10 per square foot on the bed rock.

GETTING AMERICANIZED.—The Sacramento Union says that Wing Lee, a Chinese merchant doing business in that city, applied to the County Court on Wednesday, the 5th inst., for the benefit of the Insolvent Act. His liabilities amount to \$3,946; available assets to \$2,000.

THE SEXES.—There is, according to the census, an excess of 733,253 males over females in the United States. This fact is not worthy, and ought to quiet the apprehensions of those who feared the war would cause a landing merchant, since of women after peace was declared. No matter how bloody the war may be, or how long it may last, it cannot make away with three-quarters of a million of lives.—Sac. Bee.

This is truly a noteworthy fact, if correct. We have been in error many years if the comparative statement of the Bee is true. We have always understood the excess of females over males, in the United States, did not exceed half a million: be that as it may, the Bee is insane upon the question of losses. The loss of human life, by sword, famine and disease, since the commencement of the war, will well nigh reach that number, and should it continue, "bloody" at that, the loss would quadruple the number stated by that paper.

ACTION OF THE SAN FRANCISCO MERCHANTS RELATIVE TO "GREENBACKS."—Some two or three weeks ago, a meeting of leading merchants of this city was held in the Merchants Exchange to interchange views as to the legal tender notes, etc. An adjourned meeting was held at the same place last Saturday night, when it was decided to adopt a circular agreement, not to receive or pay out legal tender notes at any but the market value—gold being adhered to as the standard. The idea is that this agreement will be signed by all the leading firms of this city, and then all the other city firms, and those up country who have dealings with them will sign it. Then it will be a firmly established rule. If any refuse, or after agreeing to pay for goods in gold, pay in greenbacks at par instead, then his name will be entered in a black book, and the firms all over the State who have entered into the agreement will be notified, so that wherever he goes he will be refused, and he will have to pay for his goods in yellow gold in advance. The merchants consider that some such action as this is necessary to protect them in continuing the credit system; and there is no question but that there should be a general and thorough understanding on this point—either to accept greenbacks as the basis of credit, or gold. They have chosen the latter; and merchants if they do not pay in gold or other coin of equal value, must pay in other legal tender a sum equivalent if cashed to the amount called for in the bill of invoice. Interests or credits, according to this reciprocal agreement, must be paid in like manner.—Bulletin of the 10th.

It appears by the foregoing that the merchants of San Francisco, although anxious to continue the "credit system," are not willing to receive the acknowledged "legal tender currency" of the Government in payment for goods and merchandise furnished to country dealers, but have established gold and silver as the basis. It is well, and shows a disposition on the part of the business men of San Francisco to have the matter fairly understood by all dealers, to have some standard of intrinsic value.

THERE are 1,236 bee hives in San Joaquin county, and 300,000 grape vines.

FROM OUR OWN CORRESPONDENT.

DUTCH FLAT, Nov. 10, 1862.

MR. EDITOR:—After an absence of three weeks from your columns, during which period I was traveling through the mineral and agricultural districts on both sides, I again claim the attention of your many readers. Though my statistics and compilations may not equal, in flow of language, some of the more celebrated historians, it will nevertheless be as reliable. I have visited Lost Camp, Blue Bluff, Green Valley, Eschre Bar, Hamburg Cañon, Damascus, Forks House, Michigan Bluff, Bath, Forest Hill, Todd's Valley, Yankee Jim's, Wisconsin Hill and Iowa Hill, and will speak of them in their order as arranged. It will be necessary for the reader to understand that this series will give the main features of the several localities as they were in the latter part of October combining, of course, all further matters of interest that it is possible to obtain from reliable sources.

LOST CAMP.—This Camp was established in the early days of California and derived its name, as I am told, from an emigrant train having encamped at this place during a severe snow storm, and being scarce of provisions, a party started out in search of "grub," and were unable, for some days, to find the spot where their unfortunate comrades were actually starving to death—hence the name—Lost Camp. This Camp lies about ten miles in a northerly direction from Dutch Flat. The road, most of the distance, is good, and can be rode over by wagon from six to seven months in the year. There are some four or five small valleys of fine agricultural land, better soil I have not seen in the State, through and along side of which the road passes; one farm or ranch of which, contains 160 acres, is owned by Mr. J. L. Herbert. There has been a considerable quantity of fruit raised in this section this year, but the main product has been potatoes, of which product, I am told, three ranches will furnish in the neighborhood of 150 tons. There has been a considerable mining done at Lost Camp, but from some cause, yet unknown, no great amounts have been realized. This Camp is pretty well deserted at present. The cabins, (about twenty), of the first quality, and present quite a new appearance, are nearly all tenanted. There are but two families residing here. Mr. Gillson and Mr. Coy, who appear to enjoy the life in a "Woodland Cot" very contentedly. There is but one of the many hydraulic claims here (Mr. Harkness') to be worked this winter, and it promises a large return for money and labor expended upon the works, as he owns his own ditch which furnishes an overabundance of water. The single feature of water alone, when we calculate 400 inches per day at 15 cents per inch making \$60 per day \$350 per week for water, saving, we have quite a fair dividend on this commodity alone. This claim, so I am informed by Mr. Gillson, is now about ready for water—the "telegraph" up, flumes and sluices arranged, etc. Mr. Pouse and partner are working in one of the small runs, about five hundred yards from town, and are taking out from \$8 to \$18 per day to the man. The gold is coarse and of fine quality.

There is one other important fact connected with this locality. The residents hereabouts have arranged to have a trail cut so as to shorten the distance from that place to Union Valley besides making it easier for man and beast to make the trip. It is also quite certain that a trading post will be established at this point next spring, which will materially add to the importance of this place.

I had a hearty shake of the hand and "powerful" chat with your old friend Fred. King, the presiding genius of the "Washington" Market. He fills the bill exactly—furnishing everything from a cut behind the ears to "Ox tail." In connection with this I am happy to learn that "Old Fred," owns an interest in the celebrated Louisiana Quartz Lode, lying on the south-west branch of the North Fork of the American river. It has been reported rich.

Mr. Gillson and I, and the residents generally of this locality, will accept thanks for the courtesy and attention extended to the subscriber while there.

AGESILAS.

EASTERN NEWS.

By telegraph from the East to the Associated Press, with dates to the 10th in. t., we glean the following most important items. There does not appear to be any material change in our army affairs excepting the change of command on the Potomac; General Burnside supercedes General McClellan.

On the 9th of Nov. Gen. Schofield's army returned to Springfield, Mo., and will probably go into winter quarters at or near that point. McClellan's removal caused great excitement at Philadelphia. Among the rumors as to the cause is one that some instructions of the General-in-Chief were not followed, and Lee escaped in consequence.

Forney's Press says the removal was purely a military act, and the result of military consultation and discussion. Although recommended to the President, and approved by him some time ago, it was only finally resolved upon after a long changeable inevitable.

Gen. Hunter returns in a few days to take command of the Department of the South. The New York Herald has a rumor that Secretary Seward and Blair opposed the removal of McClellan.

Gen. Hooker takes the field to-day, second in command to Burnside.

The French Minister denies that dispatches of a threatening nature had been submitted by him to the State Department.

STATE NEWS.

DUTCH FLAT, Nov. 10, 1862.

SENDER last, Nov. 24, says the California Spirit of the Times, was the day appointed for the great foot race between Pedro Selaya and David Carr, on the Willow Park Course. The match was for \$500 a side; (the proprietor of the course adding \$300) distance, one hundred yards. Selaya giving Carr six feet. At the appointed hour a crowd to the number of one thousand had assembled on the track, but some two hours elapsed before the runners made their appearance. After a little preliminary scoring the drum tapped and Carr bounded away like a deer. Selaya made but a few steps and turned out of the track, assigning as a reason, that Carr had a decided advantage, in being able to see the motion of the starter, who tapped the drum, while he was obliged to wait for the sound, by which Carr gained several yards at the start.—Great dissatisfaction was expressed, though none seemed to attach blame to Mr. Williamson, the proprietor of the course, the matter being beyond his control. A number of parties refused to pay over bets and in some instances where payment was made, suit has been instituted against the stakeholder for such monies. In connection with this matter we may state that the following card and challenge, published by Selaya since the race, remains unanswered up to the present time:

I, the undersigned, hereby give notice to my friends and the public that I was treated shamefully, on last Sunday, November 2, 1862, according to my first knowledge and belief, and hereby offer to run a foot race with Mr. David Carr, or any other man, for the sum of \$5,000—distance, 100 yards.

PEDRO SELAYA.

SPEAKING of the donation made by the Allison ranch, the Grass Valley National says: "The Allison Ranch Mining Company have already contributed \$2,300 towards relief of our suffering soldiers East, and, all things considered, we pronounce that the most liberal contribution yet made by one company in California or Nevada Territory. When we remember that this company has been idle for nearly seven months, occasioned by the storms of last Winter; that they were under enormous expenses, and that they are now only beginning to recover some of the losses sustained last Winter and Spring, we must in honesty admit that their contribution is a very liberal one, and larger in proportion than any other yet made on this coast."

PHILIP MANTEL, a quartz miner at Cement Hill, Nevada county, says the Democrat, had his left leg broken, below the knee, Wednesday afternoon. He was sitting just below a lot of quartz rock, which had been piled up on a side hill, where his partner was working. By some means, a large quantity of the rock was started from its place, and rolled against Mantel showing him down the hill. He would probably have escaped without serious injury, but his left foot having caught against a stump, the rock came against his leg with such force as to break the bone. He narrowly escaped being crushed to death under the rock, a considerable quantity of which rolled over him.

The Petaluma Journal gives an account of a drunken row which occurred between some frenzied Indians, at Bloomfield, last Sunday, resulting in one of the number getting fatally stabbed. "The Indians were congregated under the floor of a bowling alley, and the vendor of liquor, it is said, administered the whisky by means of a funnel through a knot-hole in the floor, receiving fifty cents for the same through the same novel medium. He claims, however, that he threw the liquor away, and that the Indians getting it was unavoidable on his part."

The Call makes mention of a diamond now in the possession of Mr. Collins, of San Francisco, which was found by a miner near Oroville. The stone is about a carat weight, of a pale straw color, and even in its natural condition emits beautiful scintillations. Mr. Collins handed it to a lapidary, who essayed in vain to cut it. He now intends to forward it to Amsterdam—the only city in Europe, we believe, where gem cutting has attained perfection—with all confidence that, after it leaves the artist's hand, it will be a stone of great beauty.

A YOUNG man named David Ramsey, in the employ of Wm. Ordway, of Petaluma, says the Journal, while out hunting on the morning of the 21st inst., met with a serious accident by the discharge of his gun, from the effects of which it is likely he may lose his left hand and fore arm. In attempting to draw his gun through a fence by the muzzle, the piece was accidentally discharged. The charge entered the palm of the hand and thence ranged upwards, mangling the hand and fore-arm in a most frightful manner.

A FIRE occurred at Volcano, Amador county, on Friday October 30th, says the Calaveras Chronicle, by which the following named property was destroyed: The St. George Hotel, Fridenberg's saloon and bakery, G. Spoon's butcher shop, Jerome's livery stable, Trotter's dwelling, H. Hanford's tin, copper and sheet iron manufactory and store, Dr. Bailey's office, and Johnson's boot and shoe shop. Total loss, estimated by citizens of Volcano, who were in Jackson at the time of the fire, \$25,000.

Mr. Edward M. Lynde had his arm taken off above the elbow by a circular saw at Bay Mill, Eureka, on Thursday morning, 23d ult. He slipped and fell on the saw, and says though he heard the stroke, he did not know what hurt him until he discovered his arm severed from his body.

The Mexicans of San Francisco procured a sword at a cost of \$3,000, intended for General Zaragossa, who repulsed the French invaders under Lorencez. The Marysville Express says Gen. Zaragossa has since deceased, and the magnificent present will be forwarded to his estimable wife.

A LADY died a few days since in San Francisco, from the effects produced by the intelligence that one of her neighbors had attempted suicide.

The work of surveying that portion of the Central Pacific Railroad between Sacramento and Lincoln was commenced on Wednesday morning of last week.

J. M. GAUNT, convicted of manslaughter for killing W. O'Brien, in Auburn, has taken an appeal to the Supreme Court. He has been admitted to bail in the sum of \$5,000.

A LITTLE boy, son of Frederick Ball, of Jackson, Amador county, died of the lockjaw, October 28th, brought on by running a rusty nail in his foot.

AGRICULTURAL SOCIETY MEETING.

DUTCH FLAT, Nov. 10, 1862.

PURSUANT to published notice, quite a number of the people of Placer county identified with Agricultural and other industrial pursuits, assembled at Empire Hall, Auburn, on Saturday, at 10 o'clock, Nov. 9, 1862.

On motion of Dr. J. R. Crandall, Hon. Joseph Walkup was called to the chair. On motion of Tabb Mitchell, Felix B. Higgins, Esq., was selected to act as Secretary.

Letters were read to the meeting from several prominent citizens of the county who were unable to attend. They all warmly favored our undertaking. The letters were read and ordered to be placed on file.

At the suggestion of S. B. Wyman, the Secretary read the statute relating to the organization and incorporation of Agricultural Societies.—After the reading of the law Mr. Wyman moved the appointment of a committee of five to draft articles of association for the proposed society, which was adopted.

The Chairman appointed as such Committee S. B. Wyman, Jas. E. Hale, F. B. Higgins, Thos. L. Chamberlain and J. R. Crandall. Mr. Wyman excused himself on account of business engagements and motion of J. E. Hale, the Chairman, Mr. Walkup, was placed upon the committee.

In order to give the committee time to report the meeting took a recess of one hour.

On re-assembling Chas. H. Mitchell and Jas. E. Hale were elected Assistant Secretaries. Mr. J. E. Hale, from Committee on articles of association reported as follows:

Mr. President: I am directed by your Committee to make the following report of articles of preliminary organization of an Agricultural Society in Placer county.

"Be it remembered that on this first day of November, A. D. 1862, we the undersigned citizens of Placer County, and State of California, together with such other persons as shall hereafter be associated with us in the manner hereinafter specified, do hereby organize, constitute and establish ourselves into an Agricultural Society to be known and described as 'The Placer County Agricultural Society,' and hereby declare the purposes of said organization, and ordain rules for the temporary government as follows, to wit:

1st. The objects of the organization of said Society shall be, to promote the science and encourage the practice of the various branches of Agriculture, Horticulture, Mining, Mechanics, Manufactures, Stock Raising and general domestic industry.

2d. Any citizen or resident of said county may become a member of said Society by subscribing the present declaration and rules of said Society and by paying into the Treasury the sum of \$1.00 at the time of subscribing the same and shall thereby be entitled to all rights and privileges of membership for the period of one year from the date of said organization.

3d. The officers of said Society shall consist of one President, two Vice Presidents, one Secretary, one Treasurer, and two Directors—all of whom shall be members of said Society, and during the term of office of said officers and members of the fiscal, prudential and other concerns of said Society and shall be styled the Board of Managers. The said Board of Managers to be first elected shall hold their offices for the period of six months, and until their successors shall be elected and qualified.

4th. It shall be the duty of said first Board of Managers to adopt all needful rules for their own government, the qualification of its own members during their term and shall prepare and report a draft of a Constitution and By-Laws for the permanent government of said Society, for the consideration of said Society at its next meeting to be held at on the day of 1862.

It shall likewise be the duty of said Board of Managers to make every honorable exertion to increase the membership of said Society, and for that purpose shall authorize and depute a sufficient number of suitable and discreet persons in the different portions of said county to receive and subscription of names of members and payment of initiation fees—and shall do and perform all acts requisite and expedient for the advancement of the interests of said Society not inconsistent herewith.

The meeting then decided to act upon the sections of the report aforesaid.

The preamble and first section were adopted. The blank in the second section and filled with the words "five dollars," and the section adopted. The blank in the third section was filled with the word "two;" and the section adopted. The blanks of the fourth section were filled so as to provide for the next meeting at "Auburn, at one o'clock P. M. on the first day of January, 1863." The fifth and last section of the report was adopted.

The report being adopted in full, gentlemen were requested to subscribe to the foregoing articles.

The following names were then subscribed to the articles, and the five dollar fee of membership paid.

Jos. Walkup, Chas. H. Mitchell, John R. Gwynn, Tabb Mitchell, J. R. Crandall, Jas. E. Hale, Auburn; Samuel B. Wyman, Thomas L. Chamberlain, M. Cassidy, Titus Ewing, J. R. Nickerson, Wm. H. Wilson, Alex. Mills, C. L. Wilson, Jas. P. Dameron, M. Waldron, H. W. Road, Lincoln; J. W. Myrick, Iowa Hill; Willis Jones, R. Longley, Todd's Valley; S. P. C. Howard, Virginia; Dana Perkins, Smithville.
